

全方位型日報システム (SODA) の開発

The screenshot displays the SODA web application interface. At the top, there is a navigation bar with the SODA logo and various utility icons. Below this, a header section contains filters for '必須' (Required) and '全て' (All), along with tabs for '行動日帳' (Action Log) and '新着順' (Latest). The main content area is a feed of posts. On the left, a sidebar lists several posts with their respective dates and engagement metrics (likes, replies). The central part of the page features a large image of a construction site with workers in safety gear. To the right of the image is a detailed text post from a user, which includes a timestamp, a location tag, and a body of text discussing construction safety and weather conditions. Below the text post, there are several comments from other users, each with a profile picture and a timestamp. The bottom of the page shows a timestamp '08:30' and a small caption '企画室 さま来社 (工事写真撮影)'.

取組み内容

全方位型日報システムを独自開発。SNSのようにコメントなどで双方向コミュニケーションがとれるのと同時に、タグ付けで情報の蓄積も同時に行う。

効果

コミュニケーションの促進、情報の蓄積

留意事項 / その他
